What's Credentialing?

Credentialing or recredentialing is the process of verifying a licensed practitioner's training, experience, and current competence.

Delta Dental of Alaska's credentialing process occurs once every 3 years for participating providers and is based on the standards of national, federal, and state accrediting and regulatory agencies. This process helps ensure Delta Dental members have access to the highest-quality dentists within our dental provider networks.

We accept credentialing information through the Council for Affordable Quality Healthcare's (CAQH) online credentialing system which can save you valuable time and keep all your documents in one place or you can fill out and return the [credentialing forms](#) found on our website at [DeltaDentalAK.com](#).

To sign up or access your CAHQ account, go to [ADA Credentialing](#), click the "Sign in to CAQH" button and follow the steps to create a new account or login.

For more information about directly credentialing with Delta Dental of Alaska, please visit our webpage: [Contracting and Credentialing](#) on our website at [DeltaDentalAK.com](#).
